Expand your horizons with InforTab

# InforTab Plus in-Touch

InforTab Plus in-Touch is an innovative technology that combines the information display and touch functions. Its intuitive touch technology with fast response time offers visual interaction between your customers and marketing contents.

InforTab Plus in-Touch comes in two display sizes 23" and 29". Powered by the user-friendly in-Touch screen technology, it allows customers to learn more about the products and utilize O2O services resulting in improved customer experience and loyalty. Truly interactive "in-Touch" experience provides the ability to download the signage content to shoppers mobile and can include various advertising information.
